

TURN INSIGHT INTO ACTION

ABOUT US

OUR STORY

MG Ship is a logistics technology leader transforming global supply chains through predictive intelligence, real-time visibility and data-driven trade insights. By combining deep industry expertise with advanced AI, MG Ship helps businesses navigate complex cross-border trade environments, strengthen trade finance decision-making, manage risk more effectively, and unlock greater value across global logistics and capital market ecosystems.

2026

MILESTONE 1

MG Ship (MGS), a leading logistics technology company, today announced the launch of its next-generation enterprise intelligence platform.

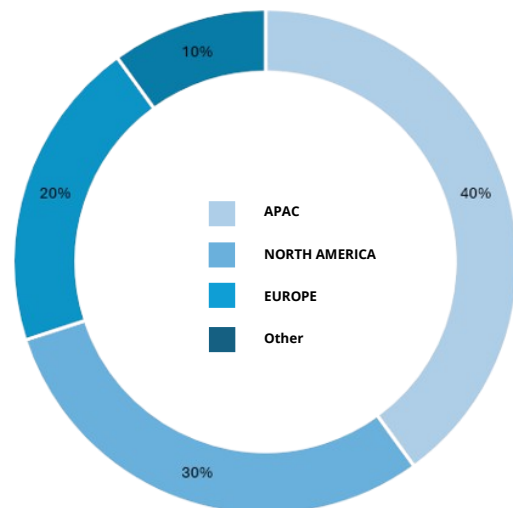

28 JULY

TURN INSIGHT INTO ACTION

CORE TARGET MARKET

We primarily focus on the **APAC** and **North America** markets. While many track-and-trace platforms struggle with limited Asian carrier integration, we specialize in solving this challenge. Our platform provides comprehensive tracking across both regions, delivering the robust connectivity that global supply chains demand.

MARKET DIMENSION

\$11.2 T

TURN INSIGHT INTO ACTION

MISSION STATEMENT

To empower businesses with real-time logistics intelligence, risk management, cargo protection and financing solutions by transforming shipment data into actionable insights that make global trade more transparent, efficient and financially accessible.

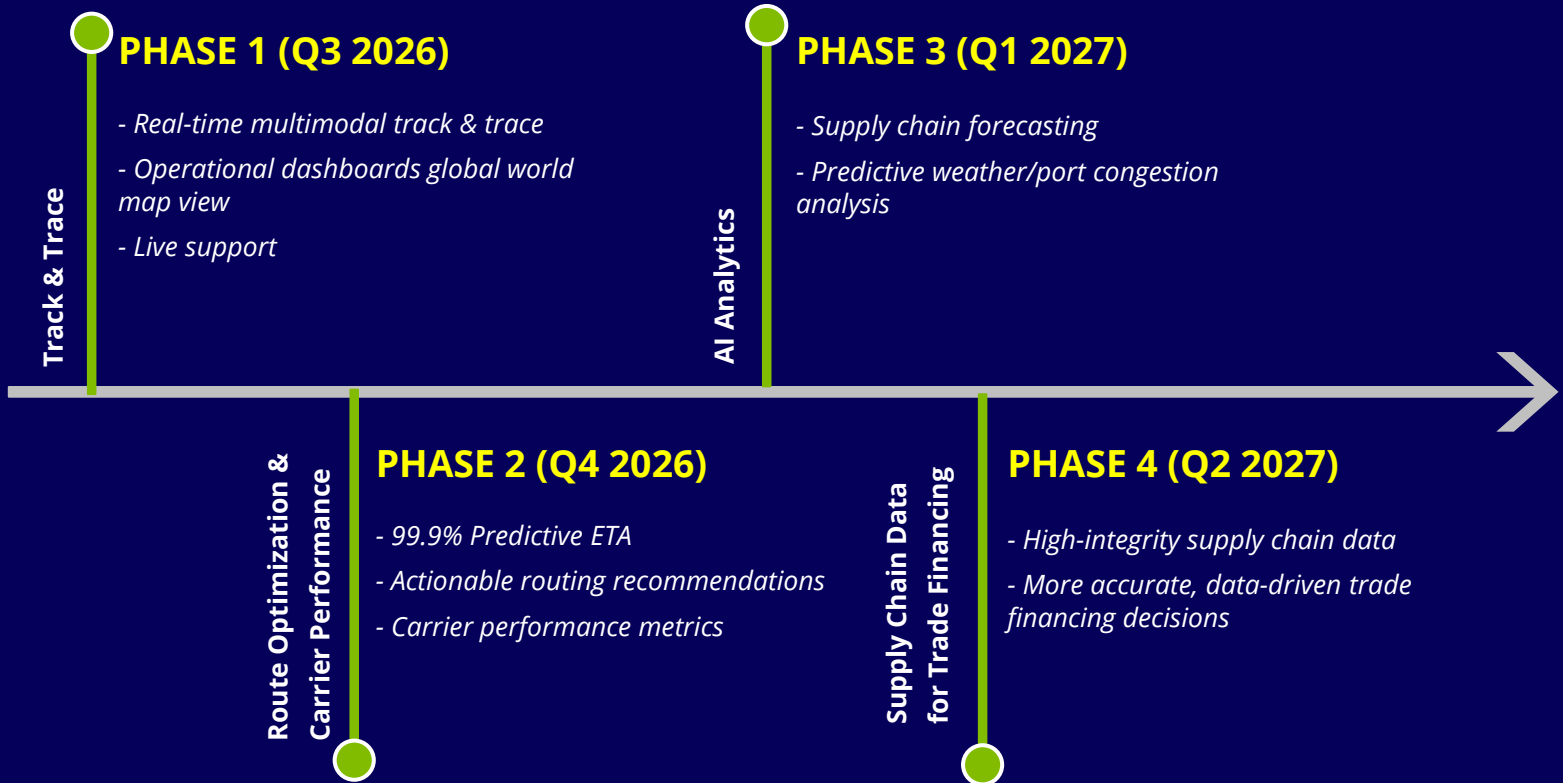

To become the world's most trusted logistics intelligence and supply chain capital platform, connecting trade, logistics and finance through data-driven insights, real-time omnichannel logistics visibility and smarter decision-making for global commerce.
